Pupils help lay down law over speeding and dog fouling

MENHENIOT Primary School children have been taking part in some local community initiatives relating to the problems of motorists speeding through the village and dog fouling. Pupils from the school's Class 5 spent a day with the local community police officer and dog welfare and enforcement officer and

found to be speeding, the trap camera on the road running through the centre of the village to the school. Although no cars were

found to be speeding, the police officer said it had been a useful task because the children were seen by many people and motorists slowed down. The children also went

around the village with the dog warden putting up signs warning of the penalties for owners who did not clear up after their dogs. Both officers said they had

been impressed by the youngsters' interest and enthusiasm.
