

Your Green Project

Menheniot Green was set up in 2021 to support residents in the parish who want to improve their local environment and challenge the effects of climate change. If you have a project in mind, we might be able to help. Read through these notes and complete the short questionnaire overleaf.

What the parish council can do

- Menheniot Green recognises and gives financial support to individual people and volunteering groups who want to carry out project work.
- Volunteering groups are not expected to use their own money to pay for work they carry out on behalf of the council.
- Councillors set aside £1000 in its annual maintenance budget to pay expenses for project work that Menheniot Green has agreed to support.
- Because project work is designed to support the challenge of climate change, we expect that all projects will be sustainable and recognise the impact of reduced resources (such as water).
- Advice is freely available from other volunteering groups within the parish and the Royal Horticultural Society (links below)
- We encourage joined up working between different parts of the parish and different volunteering groups

What we need from you

- Tell us what you want to do and why it matters to you
- How much money do you need
- When you expect to start and finish.
- Any other help you might need (eg temporary equipment, extra muscle for lifting and carrying)

Your proposal should consider

- What the benefit is to the local area
- Who will benefit from it
- How you can involve other people
- Are there things you can borrow to help you? (or can we help you?)
- Try and include people of all ages

Your name and contact details (Phone and email please)

What do you want to do? (Write a few sentences or use bullet points)

Why does this matter to you? (Are you putting something right that is wrong? Or will it make life better for your local community?)

How much money do you need from us? And what will it be used for? (Our budget is limited, so we need a rough idea of how much money you will need. Use rounded figures)

When do you want to start? (and finish) (Approximate dates so we can see where your work fits in our calendar: we might be able to give you practical help as well)

Is there any other help you need? (Do you have an idea but don't know how to make it work? Or do you need specialist help or advice?)

What happens next.

We'll look through your proposal and be in touch to talk it through with you.
